TECHNICAL SKILLS

Programming Languages : Python, C++, C, Java
Web Development : HTML, CSS, JavaScript, React.js, Node.js, Express, MongoDB, SQL
Libraries & Frameworks : NumPy, Pandas, Seaborn, Matplotlib, Scikit-learn
Soft Skills : Teamwork, Problem solving, Time Management, Communication, Adaptability, Self-learner, Excellent work ethic

EXPERINENCE

Frontend Developer & Marketing Intern | BandiWala Food Tech Pvt Ltd | Mar 2025 – Dec 2025

- **Responsive Food Ordering Platform:** Developed a responsive food ordering web interface using React.js and Tailwind CSS, enabling smooth browsing of vendors, menus, food items and more across devices.
- **Reusable UI Components & Features**: Built scalable UI components for vendor listings, menu pages, product detail views, and implementing features like search functionality, ratings display, and dynamic pricing with quantity selection.
- **Frontend Performance, UX & Marketing Support:** Optimized responsive layouts, navigation flow, and frontend performance to improve user experience, while supporting digital marketing campaigns and promotional initiatives to increase platform visibility and user engagement.

PROJECTS

Academic Resource Management Platform | React, Node.js, Express, MongoDB, Cloudinary, JWT | Full-Stack Web App | GitHub Link | Live Demo

- Built a centralized academic resource-sharing platform enabling students and instructors to manage, browse, and download exam papers and study notes with role-based access control.
- Implemented secure authentication and authorization with encrypted passwords, protected routes, and admin-only dashboards for resource, subject, and user management
- Developed scalable RESTful APIs with Express.js and MongoDB, integrated Cloudinary for cloud-based PDF storage, and implemented analytics features including download tracking, user engagement insights, favorites, and discussion threads.

Titanic Survival Prediction – Kaggle ML Competition | Python, Pandas, Matplotlib, Scikit-learn | GitHub Link

- Built and evaluated classification models (Logistic Regression, Random Forest) achieving **75.6% accuracy** on Kaggle Titanic dataset using feature engineering and cross-validation.
- Performed data cleaning, handled missing values, and applied feature engineering (e.g., extracting titles from names).
- Used model evaluation techniques to assess accuracy and submitted predictions to Kaggle (Score: **0.75598**).

Income Prediction | Python, Pandas, Matplotlib | GitHub Link

- Explored UCI dataset to determine the key factors influencing whether a person earns more or less than ₹50K per year.
- Conducted data preprocessing including handling missing values, encoding, and visualization.
- Created plots to identify patterns and trends among education, occupation, and income levels.

EDUCATION

VNR Vignana Jyothi Institute of Engineering and Technology ***Hyderabad, Telangana***
B.Tech in CSE - Data Science (2028 Expected) | CGPA: 9.43 (till 2nd year, I Sem)

Sri Chaitanya Junior College ***Hyderabad, Telangana***
Intermediate (2024) – 96%

CMR Model High School ***Hyderabad, Telangana***
10th Class (2022) – 9.8 CGPA

ACHIEVEMENTS

- 1st Runner-up, National Level VJ Hackathon - Smart Innovations, VNR VJIET (Oct 2025).
- 3rd Prize in Spark Quiz Competition at Convergence 2024
- Secured 96.51 percentile in JEE Main 2024, ranking among the top 4% of candidates nationwide.
- Qualified JEE Advanced 2024, demonstrating strong problem-solving and analytical skills.
- Secured State Rank 3877 in EAPCET 2024, ranking in the top 2% among candidates in Telangana.
