CAREER OBJECTIVE

Seeking to be part of a globally reputed organization where I can create an impact by achieving organizational goals while continuously growing, learning, and advancing towards professional excellence.

EDUCATION

VNR Vignana Jyothi Institute of Engineering and Technology

B.Tech in CSE - Data Science — CGPA: 9.43

Hyderabad, Telangana, India

2024 - 2028

Sri Chaitanya Junior College

Intermediate – 96%

Hyderabad, Telangana, India

2022 - 2024

TECHNICAL SKILLS

Programming Languages: Python, C++, C, Java

Software Tools: Git, VS Code, Jupyter Notebook, Postman

Frameworks: React.js, Node.js, Express, Tailwind

Databases: MongoDB, MySQL

Libraries: NumPy, Pandas, Seaborn, Matplotlib, Scikit-learn

INTERNSHIP

Frontend Developer and Marketing Intern

BandiWala Food Tech Pvt Ltd

Mar 2025 – Dec 2025

- Developed a responsive food ordering interface using React.js and Tailwind CSS, improving cross-device usability for 500+ users.
- Engineered reusable UI components for vendor listings, menus, and product views, reducing development time by 30% and optimized frontend performance and navigation flow, decreasing page load time by 25% and increasing user engagement by 15%.

PROJECTS

Academic Resource Management Platform

[GitHub](#) | [Live Demo](#)

Full-Stack Web App

React, Node.js, Express, MongoDB, Cloudinary, JWT

- Built a full-stack academic resource-sharing platform serving 100+ users, improving content accessibility and retrieval.
- Implemented secure authentication and role-based access; optimized REST APIs and Cloudinary integration, improving file access speed by 30%.
- Increased user engagement by 25% through analytics features like download tracking and activity insights.

Loan Approval Prediction System

[GitHub](#)

Full-Stack ML Application

React, Node.js, Scikit-learn, FastAPI

- Developed an end-to-end ML-powered loan prediction system with μ s latency using FastAPI microservices, enabling real-time predictions and seamless API communication.
- Integrated machine learning models into a scalable full-stack pipeline, ensuring efficient data flow and deployment and Improved model performance to 82% F1-score through feature engineering and optimization using Logistic Regression, KNN, and Naive Bayes.

ACHIEVEMENTS

- Secured **1st Runner-up** position in the National Level VJ Hackathon – Smart Innovations, VNR VJIET (Oct 2025).
- Won **3rd Prize** in Spark Quiz Competition at Convergence 2024.
- Secured **96.51%ile** in JEE Main 2024, ranking among the top 4% candidates nationwide.
- Successfully qualified JEE Advanced 2024, demonstrating strong analytical and problem-solving skills.
- Achieved **State Rank 3877** in EAPCET 2024, placing within the top 2% in Telangana.

VOLUNTEER EXPERIENCE

- Contributed as Web Developer at VJ Data Questers, supporting website development.
- Leading website development as Webmaster at VJ Startups, managing deployment, maintenance, and feature enhancements.
- Collaborated in technical initiatives, improving student engagement and participation in community-driven events.

CERTIFICATIONS

- Certificate for Completion of Python Program offered by Cisco.
